Autobiography

My name is Hai Hui Wang, and I have a keen interest in anime, gaming, and drawing. My current goal is to settle down in Japan permanently. I am currently studying at Tokyo Galaxy Japanese Language School for a three-month course, which is expected to end on June 16th.

Although my Japanese proficiency may not be sufficient for fluent communication, I am fluent in English. Therefore, I would like to explore job opportunities that require less reliance on Japanese communication. Of course, I will continue my Japanese language learning journey and hope to be able to communicate in Japanese in the workplace as soon as possible.
